

MPAA21 Master of Professional Accounting (Advanced)

The Master of Professional Accounting (Advanced) is two years in duration for a full-time student. Each year consists of three Study Periods, also known as Trimesters.
Core subject - a compulsory subject that you must complete.
Elective subject - a subject you must choose from the Elective Bank below.
Pre-requisite subject - a subject you must complete before undertaking another subject.
 This course comprises **16** subjects that you are required to complete: **11** core subjects and **5** elective subjects.
RPL - Should you have any Recognition of Prior Learning (RPL) credits that make you eligible for exemptions, please contact your Program Director to discuss further.

How to read the below Suggested Study Pattern (as a Full-Time Student):

8 subjects per year make up a full-time study load, following a **3 subjects-3 subjects-2 subject** pattern across the year's three Study Periods (Trimesters). **As an example:** Following the below pattern, the subjects in your first year would be:

Your first Study Period: ACC601, ECO601 an 1 elective (3 subjects) **We strongly recommend taking MGT502 as your first MPA elective** **Your second Study Period:** ACC602, LAW600, STA601 (3 subjects)

Your third Study Period: ACC603 and ACC604 (2 subjects)

Please note, this is a suggested plan. It is important to follow the Accounting subjects sequence due to pre-requisites. Remaining subjects with no pre-requisites can be taken at any time and may not be offered every trimester in some locations.

Studying Part-Time? You would still follow the below sequence from top to bottom, but with fewer subjects per Study Period.

Fast-Track? You can complete your course sooner by taking up to 4 subjects in each trimester, pre-requisites permitting.
