

MGPMPH21

Master of Global Project Management and Master of Public Health

The Master of Global Project Management and Master of Public Health is a Dual award that is **2 years** in duration for a full-time student. Each year consists of three main Study Periods, also known as Trimesters.

Core subjects - a compulsory subject that you must complete

Pre-requisite subject - a subject you must complete before undertaking another subject

Co-requisite subject - a subject you must study alongside another in the same trimester

This course comprises 16 core subjects that you are required to complete.

RPL - Should you have any Recognition of Prior Learning (RPL) credits that make you eligible for exemptions, please contact your Program Director to discuss further.

How to read the below Suggested Study Pattern (as a full-time student):

8 subjects per year make up a full-time study-load, following a **3 subjects - 3 subjects - 2 subjects** pattern across the year's three main Trimesters.

You should read the Suggested Study Pattern from top to bottom.

As an example, following the below pattern, the subjects in your first year would be:

Your first Trimester: PROJ6000, PROJ6002 and PUBH6000 (3 subjects)

Your second Trimester: PROJ6003, PUBH6002 and PUBH6003 (3 subjects)

Your third Trimester: MGT600 and PUBH6001 (2 subjects)

Studying Part-time? You would still follow the below sequence from top to bottom, but with fewer subjects per Study Period.

Fast Track? You can complete your course sooner by taking up to 4 subjects in each trimester.
