

# TESTING & ANALYSIS

## Food Services

Build Trust and Confidence with Food Testing

Intertek is a leading provider of testing and analysis services to the global food industry.

We can help you implement comprehensive food safety and quality strategies, and achieve compliance with local, national and international regulations.

Food testing is integral to the efficient production of safe, quality products. With the food industry increasingly subject to scrutiny, testing to ensure compliance with food safety regulations and to protect public health, is a must.

Our comprehensive range of food testing services includes **microbiology** to test for pathogens and spoilage organisms and **chemical and nutritional analysis** to minimise the risk of food fraud. Intertek can also provide expert testing services to detect **allergens, residues** and **contaminants**, as well as specialist services for all your **food packaging, genetically modified organisms (GMOs)** and **honey analysis** needs.

We use the latest methods and technology to identify risk factors, improve quality, efficiency and to add value to the market. As your testing partner, you can be sure of fast turnaround times and accurate test results, demonstrating compliance with statutory requirements.

### Chemical and Nutritional Testing

Our chemical and nutritional analysis service incorporates a comprehensive nutritional analysis on your products, including:

- Residues
- Heavy Metals
- Nutritional Profile

### Food Packaging

Intertek provides expert insight and comprehensive solutions for food packaging, including:

- Migration and food contact
- Residues e.g. in wax lining

### Allergens and Contaminants

From our state-of-the-art laboratory facilities, our world-class technicians use cutting edge technology to test for:

- Meat species identification
- GMO analysis
- Pathogen spoilage

### Welcome to Intertek

Intertek is one of the world's leading food safety, testing, auditing and certification bodies.

We operate over 1000 laboratories encompassing several purpose-built food testing facilities. We use the latest methods and technology, and continually work to further our knowledge and technical capabilities.

Our services can help you to focus on what matters most to your business - protecting customers, growing revenues and increasing market share.

You can also be certain that your reputation is in safe hands with our in-depth and farreaching expertise bringing assurance to manufacturing and operations for hundreds of companies and millions of consumers worldwide.

In a world that is constantly changing, it is reassuring to know that professional and expert support is always available, whenever and wherever you need it.
