SAI Global has designed a risk management specialist pathway for the BSB50920 DIPLOMA OF QUALITY AUDITING.

This qualification is designed for people to gain the in-depth knowledge needed to develop audit plans, conduct and lead audits under best practice in combination with other skills including risk management, compliance, WHS and food safety that will support them in their job role.

Typical job roles may include:

- Quality managers, management representatives, engineers and consultants
- Individuals leading their companies to ISO Management systems certification
- Risk and compliance managers
- Managers in a leadership role
- Management systems specialists
- WHS managers
- Quality assurance managers
- Food safety professionals
- Product managers

The qualification has 12 units of competency.

In order to achieve the qualification, students must complete;

4 core units plus

8 elective units, of which:

- 2 elective units must be selected from Group A
- 2 elective units must be selected from Group B

for the remaining 4 elective units:

- up to 4 units may be selected from Groups A and B
- if not listed, up to 2 units may be selected from a Certificate IV from this or any other currently endorsed Training Package qualification or accredited course
- if not listed, up to 4 units may be selected from a Diploma or Advanced Diploma from this or any other currently endorsed Training Package qualification or accredited course.

SAI Global has designed the qualification to consist of four courses;

Module 1: Lead Auditor Training (from a list of courses on various management systems)
