

Agenda	
12:30pm	Welcome and introduction
12.32pm	<p>Setting the scene: GBCA Outlook and future focus on resilience</p> <p>Presenter: Emily Chung, Green Star Program Lead, Green Building Council</p>
1:00pm	<p>Climate risk assessment – embedding resilience planning in our communities</p> <ul style="list-style-type: none"> • Understanding the critical need for stakeholder engagement and collaboration in the planning stage • Outcomes from bespoke climate assessment practice • Resilience in-design checklist • Practical examples of flood and urban heat island assessment and response <p>Presenter: Monique Gay, Sustainability & Research Officer, Landcom</p>
1:25pm	<p>PRESENTATION: NSW and Australian Regional Climate Modelling – Exploring the fine scale projection opportunities</p> <p>Presenter: Matthew Riley, Director Climate and Atmospheric Science, Department of Climate Change, Energy, the Environment and Water</p>
1:50pm	Break
2:00pm	<p>PRESENTATION: Raising resilience - Tips and traps for facilitators</p> <ul style="list-style-type: none"> • The need for an effective approach to resilience • Getting all stakeholders aligned for good resilience planning from the start • Engaging with designers positively and proactively • Overcoming barriers and providing value <p>Presenter: Zac Duryea, Senior ESD Engineer, LCI Consultants</p>
2:25pm	<p>BREAKOUT GROUPS: Encouraging stakeholder engagement and shifting the value proposition</p> <p>In smaller groups, discuss the challenges experienced when it comes to resilience planning and stakeholder engagement from the outset.</p> <ul style="list-style-type: none"> • What barriers have you faced and how have these been overcome? • What does best practice look like when it comes to resilience planning?
2:40pm	Discussion group feedback
2:45pm	BREAK
2:55pm	<p>Case Study: Millgrove - Australia's First Canopy Community</p> <ul style="list-style-type: none"> • Unpacking the 6-step model - reinventing community-led resilience • Identifying the risks and fostering an action plan • Outcomes and opportunities at a national scale

Presenter: Brett Ellis, Managing Director, ResilientCo

3:20pm

Case Study: Urban heat risk planning and mitigation – Future proofing Western Sydney

- Importance of integrating heat resilience into policy planning
- Best practice initiatives and council examples in practice

Presenter: Judith Bruinsma, Project Coordinator, Western Sydney, Regional Organisation of Councils

3:45pm

PANEL: Resilience deep dive - achieving meaningful climate risk reduction and adaptation

- What are the risk assessment drivers and indicators on existing buildings?
- What's driving the change from an operational risk perspective?
- Exploring how to achieve impactful climate risk reduction and adaptation for the built environment
- Where do the opportunities lie for strategic decision making on climate change impacts?
- How can we better educate stakeholders to ensure resilience is at the forefront of every project?
- How can geospatial intelligence be used effectively to predict impacts?

Panelists:

- Renae Walton, Principal Climate Adaptation Officer, City of Port Philip
- Laura Gannon, Associate Director, Meridian Urban
- Adam Davis, Technical Director - Sustainability & Resilience, AECOM

Moderated by Emily Chung, Green Star Program Lead, Green Building Council of Australia

4:25pm
