

THE POWER OF
REDARC

TOW-PRO
TRAIL KITS
OFF-ROAD READY BRAKING.

TOW-PRO TRAIL KITS

COMPLETE KIT

Complete off the shelf kit with everything you need for ease of installation for your specific vehicle.

TWO BRAKING MODES

Manual Off-road Mode (user controlled) to conquer challenging conditions such as steep descents, mud, sand and Everyday Mode (proportional braking) for most on-road towing conditions.

SWAYSTOP CONTROL

Stop trailer sway and pull your trailer immediately back into line with one button, keeping all your passengers, vehicle and precious cargo safe.

CONFIDENCE AT YOUR FINGERTIPS

Operating your trailer's brakes has never been easier. One Button Control, whether you're switching between modes, adjusting brake intensity or engaging emergency SwayStop Control, it's all at your fingertips for a stress-free towing experience.

FACTORY LOOK

Remote head seamlessly installs into your dash for a factory look and feel.

UNRIVALED SAFETY AND PERFORMANCE, ON AND OFF-ROAD.

Conquer your off-road adventure and tow safely without limits. Our Tow-Pro Trail helps keep your family, cargo, and vehicle safe while towing.

REDARC's Tow-Pro Trail Kit is the ultimate plug and play brake controller solution, specifically designed for your vehicle.

Engineered and tested in the harshest conditions, the Tow-Pro Trail helps you tackle elements such as steep descents, mud and sand, as well as providing smooth, safe braking for everyday hauling.
