12V Charging Cable
with ring terminals and indicator

Keep your vehicles ready for action. Monitor and charge your battery with ease using the SmartCharge 12V Charging Cable. The Battery Status Indicator provides instant feedback on the state of your battery without the SmartCharge unit connected.

EASY TO GET STARTED:
Place the clamps on the battery, for ease of connection when charging.
Place the indicator in a convenient location for monitoring battery status.

EASY TO CHECK:
- GREEN = Battery is in good condition
- YELLOW = Battery should be charged
- RED = Battery requires charging

EASY TO CHARGE:
Remove the lid of the indicator to access the connector. Plug in to your SmartCharge and press "on" to start charging. It's that simple.

Operation
SBC12ACC1-5

Mount to battery terminals

Secure fuse with cable tie

Plug into SmartCharge

Battery Status Indication
