65 cm x 35 cm / 25.59" x 13.78"

The problem

Typical towels aren't very absorbent, so you often have to use more than one to dry a full load of dishes. Plus, typical towels don't dry very quickly and can start to harbor a musty smell.

Norwex solution

The ultra-absorbent Kitchen Towel dries the whole load fast, plus the towel itself dries quickly so it's fresh and ready again when you are.

Why it's better

- **Densely woven, superfine Norwex Microfiber physically removes up to 99% of bacteria from a surface with water alone when following proper care and use instructions**
- Saves time, money and the environment with chemical-free cleaning and no paper towels
- BacLock®, our exclusive micro silver agent, protects the cloth by inhibiting odor in the cloth, which means it's ready to use again and again
- STANDARD 100 by OEKO-TEX® certified, this product and its components have been tested against a list of over 350 harmful substances and passed, enabling you to make responsible decisions for you and your family

What your customers will love

- Available in various colors and weaves to mix and match as you prefer
- Diamond textured weave is made from 70% recycled microfiber yarn
- Less lint than traditional cotton towels, so these towels help provide a friendlier environment for allergy-sensitive individuals
- Super-soft, absorbent and fast-drying
- Non-abrasive and safe on most kitchen surfaces
- Colors and weaves complement our Kitchen Cloths
- Available as part of money-saving sets

How to use

- Use to dry dishes, wipe and clean your sink and dirty countertops, and much more. Perfect for all types of surfaces, including stainless steel, enamel, ceramic, glass, chrome, granite, marble, wood, tile and china.
- When using on easily scratched surfaces such as brushed stainless steel and other coated surfaces, first test Norwex Microfiber on an inconspicuous spot. *Not for use on anti-glare surfaces.*

Caring for microfiber

Wash dirty microfiber with a Norwex laundry detergent and avoid bleach, fabric softeners and dryer sheets. *For complete instructions, please visit www.norwex.com/microfiber-care-use.*

(continued on next page)

*BacLock is an antimicrobial agent solely intended to protect and self-clean the cloth by inhibiting growth of odor-causing bacteria, mold and mildew. BacLock does not protect people from disease-causing pathogens.

All Norwex Microfiber products carry a two-year warranty. Please visit www.norwex.com/product-guarantee for complete details.

This product was independently tested for harmful substances according to the strict global criteria of STANDARD 100 by OEKO-TEX®.

Demo tip

- Have your Host set out several cups. Rinse each one in water and dry it with the same towel. Occasionally let guests feel the towel, or let them take turns drying the cups, to see how much water the towel can hold.

Did you know

- Every day, 51,000+ trees are cut down to feed the paper towel habit of North America
- Around the world, used paper towels create 254 million tons of trash every year
