Mini 45.5 cm x 7.5 cm / 17.91" x 2.95"
Mini Sleeve Replacement 20 cm x 7.5 cm / 7.87" x 2.95"

The problem

We all have those hard-to-reach places that seldom, if ever, get dusted properly. Reaching tight, out-of-the-way surfaces and angles can be difficult, so these areas often go ignored.

Norwex solution

Extra-fine, statically charged microfiber on one side to grab dust, pet hair and other small particles with plush, thick microfiber on the other side to pick up dust and keep it from resettling.

Why it's better

- Flexible, multifunctional design for easier and more efficient chemical-free dusting
- Multi-Use Handle unscrews to reveal a bristle brush to whisk away dirt and crumbs from small and tight spaces
- BacLock®, our exclusive micro silver agent, protects the cloth by inhibiting odor in the cloth, which means it's ready to use again and again

What your customers will love

- Made from extra-fine, fluffy microfiber that attracts and holds dust, pet hair, cobwebs and more from a variety of surfaces
- Made from 51% recycled microfiber yarn
- Bendable and easy to use
- Connects to the Telescopic Mop Handle to comfortably clean hard-to-reach areas

- Two sizes for all your dusting needs
- Removable sleeve for easy washing
- Additional sleeves are available

How to use

- Slip sleeve on and then bend EnviroWand to adapt to your needs
- To remove the sleeve for washing, straighten the EnviroWand and then slip the sleeve off wand
- The EnviroWand easily attaches to the Telescopic Mop Handle. Just squeeze the two buttons on the base and pull to remove it from the handle. Then slip the wand into the mop handle, squeeze the buttons and slide into place.
- When using on easily scratched surfaces such as brushed stainless steel, first test Norwex Microfiber on an inconspicuous spot. *Not for use on anti-glare surfaces.*

Caring for microfiber

Wash dirty microfiber with a Norwex laundry detergent and avoid bleach, fabric softeners and dryer sheets. *For complete instructions, please visit www.norwex.com/microfiber-care-use.*

(continued on next page)

BacLock is an antimicrobial agent solely intended to protect and self-clean the cloth by inhibiting growth of odor-causing bacteria, mold and mildew. BacLock does not protect people from disease-causing pathogens.

All Norwex Microfiber products carry a two-year warranty. Please visit www.norwex.com/product-guarantee for complete details.

EnviroWand® with Two-Sided Duster (cont.)

Demo tips

- Flex the EnviroWand with Two-Sided Duster to dust inside a lamp shade or around knickknacks
- Attach to a Telescopic Mop Handle and demonstrate the ease of dusting a ceiling fan or entryway light fixture
- Unscrew the Multi-Use Handle to show guests the bristle brush for cleaning smaller nooks and crannies

Did you know

- Dust bunnies aren't just unsightly and sometimes allergenic; they may also contain toxic chemicals. Why? The many chemicals in and around our homes wind up in dust as they migrate from home products like furniture, electronics, plastics and fabric. They also come in through open doors and windows and on our shoes.
