**Bag:** 30 cm x 7 cm / 11.8" x 2.7"

**Brush:** 27 cm long x 1 cm diameter / 10.6" long x .39" diameter

Reduce single-use plastic! These extra-wide straws are super portable and made from temperature-resistant, food-grade silicone and perfect for thicker smoothies and shakes as well as any cold or warm beverage.

## THE PROBLEM

Thick shakes and smoothies are perfect for beating the heat, but sometimes trying to get them through that skinny straw can be challenging. Besides, you're trying to live more sustainably and feel a little guilty using a single-use plastic straw anyway!

## NORWEX® SOLUTION

With four vibrant colors of our extra-wide, food-grade silicone straws, the Silicone Straw Set is perfect for thicker treats and beverages and much more sustainable than single-use plastic straws that pollute waterways and threaten wildlife.

## WHY IT'S BETTER

- Extra-wide opening (0.8 cm / 0.3") makes it easy to consume thicker beverages, like smoothies and shakes.
- Four different colors so each family member can have their own.
- Drawstring bag makes it easy to take straws on the go, reducing your reliance on single-use plastic.
- Not made with natural rubber latex.

## FREE FROM

- BPA
- Phthalates
- PVC

## WHAT YOUR CUSTOMERS WILL LOVE

- Each straw is reusable, durable and flexible.
- Soft, food-grade silicone is easy on your teeth and kid-friendly.
- Temperature-resistant, so you can enjoy iced or warm beverages without the straw getting cold or hot.
- Perfect for use with your favorite tumbler for hot or cold drinks.
- Includes stainless steel (handle) brush with nylon bristles for cleaning.
- Top-rack dishwasher safe.

## HOW TO USE

- Pour your favorite hot or cold beverage. Insert straw and sip to your heart's content.
- The machine-washable drawstring bag holds all four straws and the cleaning brush; just toss them in your bag and use wherever you go.
- Hand-wash before using the first time and after each use with the cleaning brush and Dishwashing Liquid.
- Can also be cleaned in the top rack of the dishwasher.

## DEMO TIP

- Bend one of the straws to show how flexible it is. Mention that it's extra-wide, making it easy to consume shakes and smoothies—particles won't get stuck!

## DID YOU KNOW

- Silicone does not react with food, liquids and most chemicals and does not offgas hazardous fumes over its life or while in use.
- On average, each person in the U.S. uses 1.6 plastic straws every day. Between the ages of 5 and 65, this means about 38,000 straws are used per person. The sooner we reduce this consumption, the better for our planet!
- Every piece of plastic ever used since its invention is still in existence, most of it in our landfills.

## COMPLEMENTARY PRODUCTS

- Silicone Food Storage Containers
- Limited-Edition Eco Utensils
