35 cm x 26 cm / 13.78" x 10.24"

The problem

Abrasive cleaning solutions leave a film of broken-down dirt, grime and chemicals dried on your countertops. But most cloths just push the dirt around and become soggy quickly.

Norwex solution

Our super-absorbent Kitchen Cloth thoroughly clean dishes, kitchen countertops and more with only water.

Why it's better

- **Densely woven, superfine Norwex Microfiber physically removes up to 99% of bacteria from a surface with water alone when following proper care and use instructions**
- Norwex Microfiber uses a combination of static electricity and capillary action to pull dirt and grease up into the fibers and away from the surface
- Saves time, money and the environment with chemical-free cleaning and no paper towels
- BacLock®, our exclusive micro silver agent, protects the cloth by inhibiting odor in the cloth, which means it's ready to use again and again
- STANDARD 100 by OEKO-TEX® certified, this product and its components have been tested against a list of over 350 harmful substances and passed, enabling you to make responsible decisions for you and your family

What your customers will love

- Available in various colors and weaves to mix and match as you prefer
- Diamond textured weave is made from 70% recycled microfiber yarn
- Super-soft, absorbent and fast-drying
- Less lint than traditional cotton cloths, so these cloths help provide a friendlier environment for allergy-sensitive individuals
- Non-abrasive and safe on most kitchen surfaces
- Colors and weaves complement our Kitchen Towels
- Available as part of money-saving sets

How to use

- Use to clean dishes, sinks, dirty countertops and much more. Perfect for all types of hard surfaces, including stainless steel, enamel, ceramic, glass, chrome, granite, marble, wood, tile and china.
- When using on easily scratched surfaces such as brushed stainless steel, first test Norwex Microfiber on an inconspicuous spot. Not for use on anti-glare surfaces.

Caring for microfiber

Wash dirty microfiber with a Norwex laundry detergent and avoid bleach, fabric softeners and dryer sheets. *For complete instructions, please visit www.norwex.com/microfiber-care-use.*

(continued on next page)

*BacLock is an antimicrobial agent solely intended to protect and self-clean the cloth by inhibiting growth of odor-causing bacteria, mold and mildew. BacLock does not protect people from disease-causing pathogens.

All Norwex Microfiber products carry a two-year warranty. Please visit www.norwex.com/product-guarantee for complete details.

This product was independently tested for harmful substances according to the strict global criteria of STANDARD 100 by OEKO-TEX®.

Kitchen Cloth *(cont.)*

Demo tip

- Sprinkle some pepper on your Host's kitchen counter, then use a damp Kitchen Cloth to pick it all up in just one swipe!

Did you know

- Many products incorporate silver because of its antibacterial properties. There are silver antibacterial socks, silver soap, silver-lined curtains in hospitals, silver-lined bandages for treating burns, even silver toothbrushes.
