

Eye Mask

limited-edition

Item #: 309076

Size: 21 cm x 10.5 cm / 8.3" x 4.1" One size fits most.

Plush microfiber on one side, satiny smooth microfiber on the other, makes getting a good night's sleep a dream come true.

*Contains BacLock®, our exclusive antibacterial agent for self-cleansing purposes only. The agent is solely designed to inhibit bacterial odor, mold and mildew growth within the product.

THE PROBLEM

A calm, serene environment is important for a good night's rest, and blocking out light plays a significant role in that. When you sleep, exposure to light can interfere with your circadian rhythm, curtailing or preventing the deep sleep you need to function at your best. Whether you're going to bed for the night or just taking a quick cat nap, any source of light can be an unwelcome distraction.

NORWEX® SOLUTION

To help ensure you get your best night's rest, block out sources of distracting light. The super-comfortable Eye Mask made from two kinds of Norwex Microfiber completely obstructs unwanted light to help you get to sleep faster and stay asleep longer. The BacLock® antimicrobial technology reduces the growth of acne-causing bacteria within the cloth, so it's great for acne-prone skin.**

WHY IT'S BETTER

- Made of extra-comfortable, slightly padded Norwex Microfiber with BacLock*.
- One side is satiny smooth, the other super-soft and plush.
- Tested specifically for acne-causing bacteria and proven to reduce it by more than 99% in the cloth.
- BacLock* offers continuous protection against microbes and odors within the cloth.
- BacLock* within the cloth makes it mildew resistant, keeping it cleaner and fresher longer.
- BacLock*, with its self-cleansing properties, inhibits the growth of bacteria within the cloth stemming from everyday oil, dirt, germs and dead skin cells.

WHAT YOUR CUSTOMERS WILL LOVE

- Effectively and comfortably blocks sources of light to help promote restful sleep.
- Great for those who have trouble falling asleep, work a night shift or don't have blackout curtains.
- Easy to use; one size fits most.
- Stylish design promotes comfort, rest and relaxation.
- Stretchy covered elastic strap holds mask in place and doesn't tangle in hair.
- Includes convenient drawstring carrying bag for storage and travel.

HOW TO USE

- Before lying down, slip the Eye Mask onto your face, covering your eyes completely.
- Can be worn both ways, with the satiny side on the inside or out.
- Both sides have BacLock*, so both are great for acne-prone skin.**

CARING FOR MICROFIBER

Wash dirty Eye Mask with a Norwex laundry detergent and avoid bleach, fabric softeners and dryer sheets. For complete instructions, go to your *Consultant Office* > *Resources* > *Product Information* > *Product Instructions* > *Microfiber Care*.

DEMO TIPS

- Ask your Host to model how comfortable the Eye Mask is for the other guests. Ask if she prefers the satiny side on the inside or out.
- While she's wearing it, have fun by putting a little naturally scented, limited-edition Lysere™ Sugar Plum Hand Lotion in her palm. Ask if she can guess the scent.
- Pass the mask around to other guests, letting them feel the difference between the plush and satiny smooth microfiber sides.
- For online parties, model the mask yourself and let guests know it can be worn either way. Share that both sides feel great and contain BacLock* to help the cloth stay fresher longer.

DID YOU KNOW

- According to sleep expert Samuel Gurevich, MD, "Many people need their environment just right to fall asleep. It normally needs to be safe, comfortable and without a lot of stimulation, including from artificial light or a TV playing in the background. Eye masks can help achieve this because they create that dark, quiet room."

<https://health.clevelandclinic.org/the-case-for-wearing-a-sleep-mask/>

- A circadian rhythm is a natural, internal process that regulates the sleep-wake cycle and repeats roughly every 24 hours. It can refer to any process that originates within an organism and responds to the environment.
