9.7 cm x 6.3 cm x 7.6 cm / 3.8" x 2.5" x 3"

The problem

It's been a while since you gave your bathroom and kitchen tile a good scrubbing. There's no telling what's accumulated on it by now. But you don't relish the thought of tackling this time-consuming job. Sure, chemical-laden cleaning products might help make it faster, but at what cost to your family's health? Or the health of the environment as those chemicals wash down the drain? You need something that's both fast and safe.

Norwex solution

The Tub and Tile Cleaning Attachments work with your Telescopic Mop Handle and Multi-Use Handle to help you quickly bring tile, tubs and shower stalls to a sparkling shine with no harmful chemicals. The Joint connects the handle to your Bristle or Microfiber Pad Attachment, allowing it to swivel easily over surfaces, scrubbing away grime as you go using water only or an environmentally friendly Norwex cleaning solution. The system is fast and easy – there's no bending or getting on your knees – and your bathroom and kitchen tile will sparkle like new without any harmful cleaning chemicals. Plus, the BacLock[®] antimicrobial agent in the sturdy bristles and handle button and grip helps prevent odor due to bacteria, mold and mildew growth.

Why it's better

- Enables quick and easy coupling of Tub and Tile Cleaning Attachments with Bristles and with Microfiber Pad to the handle of choice
- Swivels 180° for secure and versatile cleaning
- Made with 39% recycled materials
- BacLock[®], our exclusive micro silver agent, protects the product by inhibiting odor in the product, which means it's ready to use again and again

What your customers will love

- The system allows you to reach all surfaces without having to get on your knees
- Compatible with Telescopic Mop Handle or Multi-Use Handle
- Hassle-free interchangeability between cleaning attachments
- Lightweight system is easy to maneuver
- Available as part of money-saving sets

How to use

- Attach to either the Multi-Use Handle or a Telescopic Mop Handle
- Slide and snap onto the attachment of choice

Demo tips

- Bring a Tub and Tile Cleaning System to the party and demo how easy it is to attach the Joint to a Multi-Use Handle
- Show your Host how to switch out the Attachment with Microfiber Pad for the Attachment with Bristles and then ask her to demo it to the guests
- Mention that attaching the system to a Telescopic Mop Handle helps you clean your entire shower stall without having to bend or get on your knees

Did you know

- Many typical tub and tile cleaning systems rely on the use of harmful chemicals and/or costly batteries to operate

(continued on next page)

 BacLock[®] is an antimicrobial agent solely intended to protect and self-clean the product by inhibiting growth of odor-causing bacteria, mold and mildew. BacLock does not protect people from disease-causing pathogens.
