

Norwex Skin Care

Following a good skin care regimen is important – but you know your skin best. Use our suggested plan or create your own to discover what's most effective for you.

1 Cleanse

Use your **Face Cloth** and water to gently cleanse and exfoliate. For an extra-refreshing clean, use the **Cleansing Facial Powder** to gently cleanse and exfoliate without stripping away essential moisture.

How to Use

Dispense a quarter-size amount of powder into very wet hands and rub together to create a foam. Apply to face in a circular motion and rinse thoroughly.*

3 Moisturize

Hydrating Moisturizer adds essential hydration to skin while locking in treatment product(s).

How to Use

Gently massage 2 pumps onto face, neck and décolletage using small upward circular motions.*

Illuminating Oil nourishes, hydrates and protects your skin.

How to Use

Gently massage 3–5 drops onto cleansed face, neck and décolletage.* Tip: For extra hydration and to lock in moisture, combine Hydrating Moisturizer and Illuminating Oil.

DETOX + RESTORE

Hydrating Night Cream helps restore skin overnight and detox it from environmental stressors as you sleep.

How to Use

Massage ½ – 1 full pump onto face, neck and décolletage in upward strokes.

2 Treat

Rejuvenating Serum reduces visible signs of aging, brightens skin and improves elasticity.

How to Use

Pat a full pump gently onto cleansed face, neck and décolletage.* Tip: Apply to slightly damp skin.

Renewing Eye Cream fights the appearance of “tired eyes” and soothes puffiness.

How to Use

Using your ring finger, gently pat approximately half a pump around the eye area.*

4 Protect

Reef-friendly certified **PROTECT + PREVENT Mineral Facial Sunscreen** blocks harmful UVA/UVB rays as well as blue light and pollutants. Great indoors and out, year-round.

How to Use

For sun protection: Apply liberally to face 15 minutes before sun exposure. Reapply at least every 2 hours or after 40 minutes of swimming or sweating and immediately after towel drying.

For general daily use: Apply 2 fingers' worth (about ¼ teaspoon) in the morning as your last skin care step and before applying makeup. Reapplication may be necessary before going outdoors.
