Sleeve folding instructions

Use our newly rebranded sleeves to easily package microfiber products for best presentation.

1

Set folded cloth on sleeve and align front panel with cloth.

2

Flip over.

3

Fold over right slotted side and fold under excess length.

4

Fold over left side and insert notch into best fitted slot.

5

Slide into place until sleeve fits snug and locks in place.

6

Not sure what size sleeve to use?

Simply measure your product to determine
the best sleeve size. It's easy!

1. Fold the product.
2. Measure the width.
3. Choose your sleeve:
    - Small sleeve – 9.2 cm to 12.5 cm / 3.6" to 5"
    - Medium sleeve – 13 cm to 18 cm / 5" to 7"
    - Large sleeve – 21.8 cm to 29.5 cm / 8.5" to 11.6"

Note: Ranges are based on product depth of 1.5 cm / 0.6".
