

**BEFORE**

## Active assessments, monitoring, and alerts

Coalition Control™<sup>3</sup> is an automated scanning and alerting service, which all Coalition policyholders have access to. It assesses your organisation's digital risks from cybersecurity exposures and shows you how to fix them.

**Active risk assessment** — Access a near real-time snapshot of your organisation's digital risks, using powerful data and scanning cyber security technologies to identify potential exposures.

**Third-party risk management** — Monitor third-party vendors, suppliers, and partners on your Watchlist and receive alerts on their critical vulnerabilities.

**DURING**

## Active response during security incidents

Receive continuous scanning and monitoring of digital assets and other risk factors associated with cyber and executive risks — providing customised alerts for critical issues and personalised security recommendations so brokers and policyholders know when new risks arise.

**Security support centre** — Coalition is a cyber insurance provider with dedicated, in-house support, incident response<sup>1</sup>, and cyber claims teams<sup>2</sup>—to help policyholders understand their cyber vulnerabilities and remediation options when responding to critical alerts.

**Coalition Incident Response (CIR) team** — Our team of incident responders, forensic specialists, and security engineers<sup>1</sup> respond in minutes, not days, to help accelerate your claims response. From ransomware to reputational impacts — our Active Response solution helps remediate cyber and issues to help your business recover quickly if an incident occurs.

**Coalition claims** — Our claims team<sup>2</sup> includes privacy lawyers and legal experts who can help you navigate the recovery process. Claims services can include — clawing back lost funds, managing vendors and law enforcement, and ensuring your claim is managed efficiently.

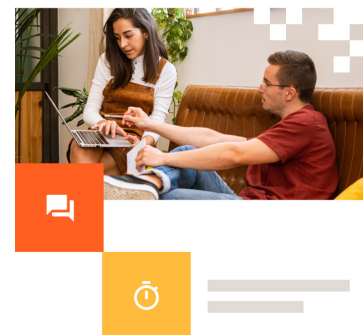

**AFTER**

## Comprehensive insurance to help you recover quickly

Coalition's comprehensive cyber insurance policy\* can help your organisation recover financially and operationally so you can get back to business.

**Protect the value of your business** — We don't just protect your network. Our insurance policies can also protect your business with coverage for financial losses and liability arising from cyber incidents or technology failures.

**Insurance you can depend on** — Coalition's insurance products are offered with the financial security of Allianz Global Corporate & Specialty SE and certain coverholders at Lloyd's of London.\*

\*Please read your bound policy for all purchased coverages, terms, and conditions. <sup>1</sup>Coalition Incident Response (CIR) services are available to a policyholder pre-claim or after a claim has been filed. CIR is one of several vendors that Coalition policyholders may engage at the time a claim is filed. CIR is an affiliate of Coalition Risk Solutions Limited. To see a full range of vendors available to Coalition policyholders [click here](#). <sup>2</sup>Claims services are provided by Coalition Inc. and Coalition Risk Solutions Ltd. <sup>3</sup> Coalition Control and other security services are provided by Coalition, Inc.
