Foam Control Solutions for
Water and Wastewater Treatment

 **Univar**Solutions

NOFOSOL

Foam Control Solutions for Water and Wastewater Treatment

Antifoam or Defoamer or Deaerator... Is There a Difference?

Antifoams

- A product added to a process in order to prevent or control the development of foam.

Defoamers

- A product added at the foaming location for immediate knock-down.

Deaerators

- Remove air bubbles in viscous liquids to improve fluid properties.

We are proud to offer a wide range of innovative and proven silicone-based and silicone-free products suiting diverse municipal and industrial wastewater treatment plants.

Our Strengths

A full product range to suit your application

PRODUCT	MINERAL OIL	COD ADDITION	BIODEGRADABILITY	OPER. T (°C)
