# NORTHERLY™

## *Vintage with a Touch of Vogue*

As Northerly Isle joins Chicago's natural landscape with the city's architectural edge, the Northerly kitchen collection fuses vintage details with modern lines. Incorporating delicate ring details and flared forms that meld with hints of industrial polish, the Northerly collection embraces old and new with style. The full-scale and prep pull-down faucets offer either stream or powerful spray with SnapBack® retraction that works with the Grip Lock® weight to effortlessly draw the sprayhead back into the spout. Ceramic disc valves ensure leak-free performance and smooth, easy operation while a 1.75 gpm flow rate offers water and utility savings. Additionally, the full-size, pull-down faucet comes with a finish-matched cover plate for easy replacements. For retro styling with a contemporary refresh, Northerly is a perfect addition to any kitchen, mud room, laundry area, and more.
